RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 106 pages. Original publisher: Research Triangle Park, NC. : Office of Research and Development, National Health and Environmental Effects Research Laboratory, U. S. Environmental Protection Agency, 2005. OCLC Number: (OCoLC)71201482 Subject: Contaminated sediments -- United States. Excerpt: . . . For each research issue, the project description summarizes the issue, the state of the science, and the research needs. In addition, a list of the research targets and a description of the actual research steps and tasks required to complete the research are included. The project description also includes a section on technology transfer that describes how the products and research will be provided to OSRTI and identifies the resources (FTE and project-specific extramural dollar needs) required to accomplish the research. The resource summary is used to both ensure that the Steering Committee does not design a program requiring more resources than are available and to identify explicitly what can be done with additional resources. Finally, the project descriptions are completed with a critical path diagram, a product timeline, and references. After the individual project descriptions in this document, a Program Summary and Management section is provided. This section summarizes the research program outputs and discusses how the research program will be managed within NHEERL. In addition to the research projects, this MYIP includes two additional projects (Projects V and VI) describing the preparation of technical documents. Project V describes the preparation of Equilibrium Partitioning Sediment Benchmark (ESB) documents for several sediment contaminants including polycyclic aromatic hydrocarbon (PAH) mixtures, metal mixtures, and pesticides. Project VI discusses the preparation of a sediment Toxicity Identification Evaluation (TIE) document for use in freshwater and saltwater systems. Neither project involves active research,...
