By Missouri State Board Agriculture

Rarebooksclub.com, United States, 2012. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****.This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1880 Excerpt: .bottom, a rich, deep, alluvial, bordering on the red mulatto soil; upland soil, which grades through all shades of blac grey and red. The latter is the celebrated mulatto soil for wl Southwest Missouri is particularly noted, and is so highly prized wb ever known. The soils are underlaid with what is known as the red belt, taining the porous hornstone, rich in oxide of iron, oxide of calcium, phosphorus and animal and vegetable deposits, which together act o- the soil as perpetual fertilizers. This red subsoil, broughtrom adepth of twenty or thirty feet, will sprout vegetation like a hot bed. The soils of Jasper county are noted as favorable to the production of every staple grown in the Northern States, as well as some of the; leading productions of the Southern States, such as cotton, peanuts, barley, hemp, flax, castor beans and field peas. me...

Reviews

It in a single of my personal favorite ebook. It can be loaded with wisdom and knowledge You can expect to like just how the blogger create this pdf.

-- **Dr. Travis Berge**

Completely essential read through publication. It normally does not expense excessive. It is extremely difficult to leave it before concluding, once you begin to read the book.
