

The MX Weapon System: Issues and Challenges: Masad-81-1 (Paperback)

By -

Bibliogov, United States, 2013. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****.Progress has been made during the first year of full-scale development of the MX weapon system, particularly in missile development. However, the Department of Defense (DOD) is faced with a tremendous management challenge in achieving cost, schedule, and performance goals. Although DOD has approved new requirements estimated to cost \$700 million, there has been no change in the life-cycle cost estimate. MX is designed to provide a certain number of surviving reentry vehicles assuming a threat constrained by the unratified Strategic Arms Limitation Treaty. Without a treaty, the Soviets could build enough weapons to neutralize MX. MX could then be expanded to counter that threat, at considerable cost, by adding missiles, shelters, and/or a ballistic missile defense. Congress should be aware that it is not possible at this time to predict the ultimate size of the deployment area, the number of missiles and shelters, or the cost of MX. The primary method of Strategic Arms Limitation Treaty verification should prevent undetected deployment of additional missiles. Some of the extra verification features in the MX design, especially the view...
