

The Social Development of Leadership and Knowledge A Reflexive Inquiry into Research and Practice

By Robert Warwick

Palgrave Macmillan. Hardcover. Book Condition: New.

Hardcover. 240 pages. Dimensions: 8.6in. x 5.4in. x

0.8in. Leadership and knowledge should be developed together:

developed as two intimately linked ideas, and developed with

other people. The authors make this surprising argument

through extensive, theoretically-disciplined use of narratives

from their managerial and doctoral experience. This volume is

an inspiring resource for students and providers of practice-

based research degrees, while offering practitioners, tired of

broken promises from neat frameworks and models,

unexpected opportunities to develop leadership impact and

academic insight. Ranging from complexity to sociology, and

from leadership to ontology and epistemology, the central

theory of this work draws on Bourdieus logic of practice and

Staceys complex responsive processes of relating. It yields new

ideas about reflexivity and essentially contested concepts. Since

theory is not split from practice, nor emotions and politics from

thought, full-time doctoral students will find an enlivening

perspective on method as well as courage and support for the

journey they are making. This item ships from multiple

locations. Your book may arrive from Roseburg,OR, La

Vergne,TN. Hardcover.
