

Applied Mathematics (2nd Edition Science and Engineering general education Eleventh Five-year national planning materials)

By HOU FENG BO

paperback. Book Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment. Pages Number: 300 Publisher: Science Pub. Date :2011-08-01 version 2 by Hou Fengbo editor of Applied Mathematics: Science and Engineering (Second Edition) is a general higher education Eleventh Five-Year national planning materials . Book focus on training students to apply mathematical concepts. mathematical thinking and methods to digest concepts and engineering principles to attract engineering ability. to strengthen the students apply their mathematical knowledge to solve mathematical problems. especially with the mathematical software package matlab mathematical content taught. can greatly enhance the students to use computers to solve mathematical modeling capabilities. This book includes mathematical package matlab. function. and the continuous limit. derivative and derivative. derivative applications. indefinite integral. definite integral definite integral and applications. ordinary differential equations. vector spaces of analytic geometry. differential calculus multi-function. multi- function of integral calculus. series. etc. Applied Mathematics: Science and Engineering (Second Edition) professional engineering as a general vocational teaching higher mathematics. but also can be used as engineering and technical personnel to update their knowledge of higher mathematics self-study book. Contents: Second Edition Preface Introduction Chapter 1. the first edition

Reviews

This pdf is definitely not easy to get started on studying but quite entertaining to read through. I am quite late in start reading this one, but better then never. Once you begin to read the book, it is extremely difficult to leave it before concluding.
